How to Contact The Owner of a Parked vehicle, With **Privacy!**

No Special APP is Required, Contact Details
are not Shared and can be used for
emergency situations.

160B

The Problem

When we park our vehicle in public places, there is no way anyone can contact us if the vehicle is creating any issue.

We can leave our contact details, But We don't as its tedious and not so privacy focused.

What **Situations** can cause to contact the vehicle owners.

Vehicle **blocking** someone's exit.

Most common problem in india is we park in front of people's house and shops.

Creating **Traffic**

Due to wrong parking, the vehicle may cause slow or completely jam the traffic.

Issue with the vehicle

there may be any emergency issue with the vehicle like fire, oil leakage or Window / light open which may cause battery drain.

The Simple Solution.

We have developed a Simple solution for most common and ignored problem.

★★★★★ April 18, 2022

It's extremely useful, imagine being on a street where there is no parking, like outside a hospital and since we have no option we double park, with this option, any passerby can scan and call and notify. Extremely useful and a must buy. I sure hope they come up with tags for houses, properties and mailboxes soon.
